Portrait Sessions...

It's best to come into the studio for a brief consultation before having your son or daughter photographed. I'd really like to create something special that you will cherish for a lifetime. Discussing ideas and clothing will ensure that this extra effort beforehand will be well rewarded with an outstanding portrait. Generally photo sessions with young children and babies are shorter in length but plenty of time is allowed if children or babies need a break to play or be fed. The nature of children can be unpredictable during photo sessions and every effort will be made to make for a comfortable experience. It is up to the judgment of the parent to decide what is the "best" time of day for their child to be photographed.

Children's Portrait Sessions Include:

- All photography charges
- [Online proofing album](#) with personal secure website
- Individualized photo session
- Each image is carefully examined and rendered applying the Basic Retouching Package which includes: lightening of under-eye shadows, sun spots, minor freckles or red patches, smoothing of blemishes & wrinkles, whitening of teeth & eyes.

Single Studio Session \$30

The basic indoor session, one outfit, one backdrop, with a variety of poses and expressions. Props (favorite stuffed animal, toy, etc.) welcomed.

Sibling Studio Session \$45

The basic indoor session of more than one child, one outfit, one backdrop, with a variety of poses and expressions. Props (favorite stuffed animal, toy, etc.) welcomed.

Single Outdoor Session \$50

For a casual look, and an environment which often makes children more comfortable, I also offer the outdoor session. The single session involves going to one location (choices of locations will be suggested and arranged at the discretion of the photographer) with a variety of poses and expressions. This is a popular choice by parents looking for portraits that stand out from the rest.

Home Portrait Session \$120

This session consists of an onsite portrait session at your home with unlimited images like above with outfit changes, indoors or outdoors. Extra time and care is given to choose the best areas and backgrounds and appropriate lighting.

Mother and Child \$65

This is a very popular session with new baby's and younger children. This is usually done in all white background and clothing to achieve a soft beautiful dreamy look. These images reflect that special relationship between mother and child. Soft white clothing, a light flowing robe or white night gowns are recommended. A great gift for dad or relatives. An artistic heirloom quality portrait to cherish.

Retake Policy

Retaking of portrait sessions is strictly at the sole discretion of the studio. It is my aim that you be satisfied with the photography. I will happily retake any session at no charge if you are dissatisfied due to my not meeting accepted technical standards. In order to ensure that a retake will not be required, please consult with the photographer as to attire, makeup, hair styling, and choice of background, and the best time of day for your photography session. Thank you.
